

GitPat How To

Getting Patents in Word Format with GitPat

www.gitpat.com

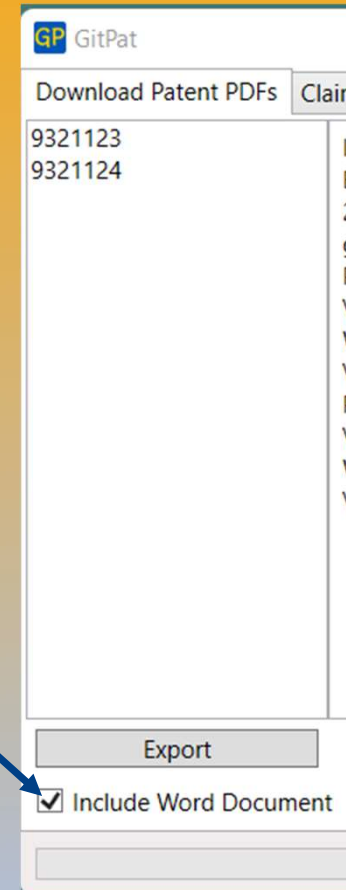

**Goal: You want to get patents in
Word format**

Getting Patents in Word Format

Nothing could be simpler:

- Run GitPat as normal
- Check this box
- Click “Export”
- You’re done

www.gitpat.com

Getting Patents in Word Format

The screenshot shows the GitPat interface with two patent numbers, 9321123 and 9321124, circled in blue. Below them, the 'Export' button is also circled in blue, with a checked option for 'Include Word Document'. A blue arrow points from the circled patent numbers to a file list, and another blue arrow points from the 'Include Word Document' checkbox to the same file list. The file list contains four entries:

Name	Date	Type	Size
9321124.docx	5/28/2022 5:30 PM	Microsoft Word Document	11 KB
9321124.pdf	5/28/2022 5:30 PM	Microsoft Edge PDF Document	727 KB
9321123.docx	5/28/2022 5:29 PM	Microsoft Word Document	10 KB
9321123.pdf	5/28/2022 5:29 PM	Microsoft Edge PDF Document	596 KB

www.gitpat.com

- **Word versions of patents:**
 - Utility patents
 - Patent Publications
 - Reissues
 - Design patents
 - *Plant Patents – not yet supported*

- **GitPat's Word versions of patent support:**
 - **Greek letter**
 - **Math symbols**
 - **Subscripts**
 - **Added and deleted material in Reissue Patents**

GitPat gives you control of your patent documents:

- PDFs
- Word versions
- Claim charts
- File histories
- Citing patent text with column and line citation
